SUST

200 liters/200 liters solar

CE
CONFORMITY

VARIOUS OPERATING MODES

CONDENSER AROUND THE TANK

REPLACE HEATER AND EWH

ANTI-LEGIONELLA FUNCTION

COMPATIBLE WITH SOLAR ENERGY *ACCORDING TO MODEL

WIDE OPERATION RANGE

MULTIPLE PROTECTIONS

AUTO-RESTART FUNCTION

REFRIGERANT GAS

ENVIRONMENTALLY FRIENDLY TECHNOLOGY

WATER OUTLET TEMPERATURE

DECLARED PROFILE

ENERGY CLASS

Various operating modes

Contains several modes, economic mode, hybrid mode and electric resistance mode.

Condenser around the tank

There is no risk of water contamination as it passes through the condenser around the tank through the indoor of the housing.

Replace heater and EWH

These equipments are a more efficient and profitable alternative than the traditional heaters or EWH.

Multiple protections

The equipment incorporates multiple protections to guarantee the total security and reliability for correct operation.

Automatic disinfection function

Vacation function

The water is maintained at 15° C with low energy consumption; Vacation days can be set from 1 to 99.

Refrigerant circuit closed

Auto-restart function

Enameled tank

200 L for 3 to 4 people

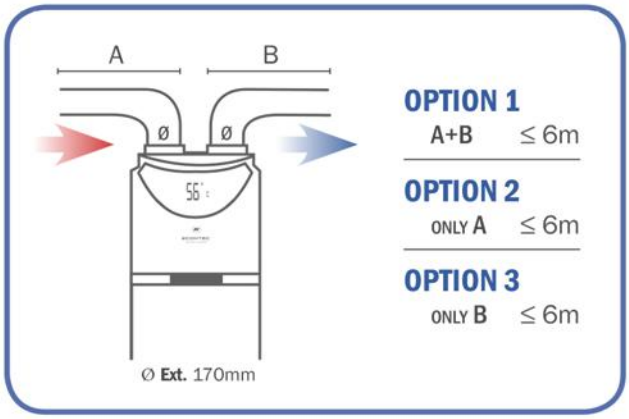

High efficiency

Wide operation range (Outdoor temperature from -15 ° C to 43 ° C)

Long service life (high quality compressor)

Compact size, high performance and low consumption, high quality components and multiple safety features make this boiler a versatile and 100% reliable choice.

3 programmable times stop/start
